The wireframe is divided into three main sections:

- Navigation Menu:** A dark rectangular box at the top left contains the following links: Ceres, About us, Landing, Home, List *Grocery Lists*, Groups *Freelges*, Invitations, and Log out. A hamburger menu icon is located in the top right corner of this box.
- Registration Form:** Below the navigation menu, the section is titled "Registration". It contains four input fields: "Jsername*", "Email*", "Password*", and "Password confirmation*". The "Password*" field includes a list of requirements: "Your password can't be too similar to your other personal information.", "Your password must contain at least 8 characters.", "Your password can't be a commonly used password.", and "Your password can't be entirely numeric.". A "Sign up" button is positioned below the "Password confirmation*" field. A link "Already have an account? Sign in" is located at the bottom left of the registration section.
- Footer:** At the bottom center, the text "Design by SFSU students" is displayed.

Team 104 Milestone 3 UI (With Teacher Input)

- Asking about nutritional data of items, and that we should look for an API with a lot of food items.
- Recipe should be placed separately and not with an individual item.
- Recipe link should not only be a link. Need a Recipe API/maybe display image
- Before implementation, we have to make UX
- Change List to Shopping List.
- User needs to know what "Groups" is. Change Groups to some other word.
- ★ Need Recipe Mockup and Page for it.
- Inventory need Add/Minus button.
- Do not need to have repetitive buttons on multiple pages.
